

# Powering the future of Grant County

Grant County Public Utility District (Grant PUD) is proposing several projects to increase electrical capacity and meet future energy needs in the greater Quincy area.

These projects are part of Grant PUD's Quincy Transmission Expansion Plan, which takes a proactive approach to managing the county's power system.

## QUINCY TRANSMISSION EXPANSION PLAN PROJECTS

### We want to hear from you!

Attend a public open house in person or online to learn more, meet the project team, and share your thoughts about route alternatives

*La interpretación en español estará disponible en cada evento.*

#### QUINCY 230KV TRANSMISSION IMPROVEMENTS PROJECTS

Grant PUD is proposing to build three new transmission lines and a switchyard in Quincy.

#### WANAPUM – MOUNTAIN VIEW 230KV TRANSMISSION LINE PROJECT

Grant PUD is proposing to build a 32-mile, 230kV transmission line from the Wanapum switchyard to the Mountain View substation in Quincy.
